PROFESSIONAL SUMMARY

Frontend Engineer who builds responsive, production-ready web interfaces with React and TypeScript. Experienced across a wide range of real-world projects — from real-time dashboards and chat applications to AI-powered tools, with a strong focus on clean UX, performance, and translating design intent into polished, interactive experiences. Comfortable with modern state management, component architecture, and shipping for users on varied devices and network conditions. Eager to build products that improve everyday life for Nigerians.

TECHNICAL SKILLS

Languages: TypeScript • JavaScript (ES6+) • HTML5 • CSS3

Frameworks & Libraries: React • Next.js • Tailwind CSS

State Management: Zustand • React Context API

Concepts: Responsive Design • Component Architecture • REST APIs • Real-time Data (WebSockets) • Browser Extensions • UI/UX Implementation

Tools & Platforms: Git • GitHub • VS Code • Vercel • Netlify • Figma

Languages (Spoken): English (Fluent) • Yoruba (Native)

EXPERIENCE

Frontend Engineer Intern | HNG Internship (HNG 14) | 2026

- Advanced to Stage 6 of HNG's 10-stage program — one of the most competitive remote internships in Africa with thousands of applicants — consistently passing each elimination round by shipping a new production-grade frontend project under tight deadlines.
- Built a real-time dashboard with live-updating data, and a real-time chat application — gaining hands-on experience with real-time data flows and responsive, stateful interfaces.
- Developed an AI summarizer browser extension, integrating an AI API into a lightweight, user-facing tool.
- Built an invoice management application and a habit tracker, applying solid component architecture and state management to handle complex UI state.
- Collaborated within distributed teams, working with designers and backend developers to deliver seamless end-to-end features.

Frontend Developer (Volunteer) | TEDxOsogbo | 2026

- Collaborated with a team to design and build the official TEDxOsogbo event website, delivering a polished, fully responsive experience ahead of the event.
- Implemented layout and interactive components using React and modern CSS, ensuring smooth cross-device compatibility.

Live site: tedxosogbo.netlify.app/

Frontend Developer (Collaboration) | Green Club — Student Club Website | 2026

- Co-built a responsive website for a student club, contributing to UI components and overall frontend implementation.
- Worked collaboratively using Git and GitHub to manage shared code and integrate features.

Live site: greenclub-app.vercel.app/

SELECTED PROJECTS

Personal Portfolio Website

- A showcase of completed frontend work, demonstrating responsive design, modern JavaScript frameworks, and UI/UX best practices.

Live site: nifemi-portfolio-v2.netlify.app/

Hawkeye — Real-Time Dashboard

- A real-time dashboard with live-updating data and a responsive, continuously refreshing interface — built to handle dynamic UI state cleanly.

Live site: hawkeyedemo.netlify.app/

Invoice Management Application

- A frontend application for creating and managing invoices, applying solid component architecture and state management to handle complex, multi-step UI state.

Live site: <https://invoicetracker01.netlify.app/>

EDUCATION

B.Sc. Statistics (In View)

University of Lagos, Lagos State • Oct 2023 – Present

West African Senior School Certificate (WASSCE)

Government Senior Model College, Ikorodu • 2017 – 2020
